

**AMENDMENTS TO THE CLAIMS**

*Please amend the claims as follows:*

1. (Currently Amended) A topical composition for transdermal administration, wherein main components of the composition comprise 1 - 45% w/w vitamin C, 1 - 5% w/w vitamin B complex, 1 - 3% w/w carotene, and 2 - 90% w/w vitamin E, wherein the composition is substantially free of vitamin A or vitamin A acid derivatives.
2. (Original) The topical composition according to claim 1, wherein the main components comprise 4 - 15% w/w vitamin C, 1 - 3% w/w vitamin B complex, 1 - 2% w/w carotene, and 20 - 65% w/w vitamin E.
3. (Original) The topical composition according to claim 1, further comprising 0.1 - 2% w/w fragrance, 1 - 5% w/w thickening agent, 1 - 8% w/w surfactant, and an appropriate amount of distilled water.
4. (Original) The topical composition according to claim 1, wherein the composition is for application to a local area of skin.
5. (Currently Amended) A topical composition for transdermal administration, said composition is for use in manufacturing a medication for treating acne, comedo or zit, wherein main components of the composition comprise 1 - 45% w/w vitamin C, 1 - 5% w/w vitamin B complex, 1 - 3% w/w carotene, 2 - 90% w/w vitamin E, 0.1 - 2% w/w fragrance, 1 - 5% w/w thickening agent, 1 - 8% w/w surfactant, and an appropriate amount of distilled water, wherein the composition is substantially free of vitamin A or vitamin A acid derivatives.
6. (Currently Amended) A topical composition for transdermal administration, said composition is for skin-care, wherein main components of the composition comprise 1 - 45% w/w vitamin C, 1 - 5% w/w vitamin B complex, 1 - 3% w/w carotene, 2 - 90% w/w vitamin E, 0.1 - 2% w/w fragrance, 1 - 5% w/w thickening agent, 1 - 8% w/w surfactant, and an appropriate amount of distilled water, wherein the composition is substantially free of vitamin A or vitamin A acid derivatives.

7. (Currently Amended) A topical composition for transdermal administration, said composition has an antioxidant property, wherein main components of the composition comprise 1 - 45% w/w vitamin C, 1 - 5% w/w vitamin B complex, 1 - 3% w/w carotene, 2 - 90% w/w vitamin E, 0.1 - 2% w/w fragrance, 1 - 5% w/w thickening agent, 1 - 8% w/w surfactant, and an appropriate amount of distilled water, wherein the composition is substantially free of vitamin A or vitamin A acid derivatives.
8. (Previously Presented) A method for treating acne, comedo or zit, comprising applying a topical of claim 1 to skin of a subject in need thereof.
9. (Original) The topical composition according to claim 2, further comprising 0.1 - 2% w/w fragrance, 1 - 5% w/w thickening agent, 1 - 8% w/w surfactant, and an appropriate amount of distilled water.
